Comments
TA L. Tan was very responsible and helpful overall. The explanations in discussion were clear, and questions from students were answered patiently. The teaching was very helpful for understanding the course material, and the class atmosphere was also friendly. If there is one area for improvement, it would be helpful to include more specific examples and to emphasize key points and common mistakes more clearly. Overall, TA L. Tan contributed a lot to the course.
While I think TA Tan knew the subject, there were times where I felt her accent made it difficult to follow along effectively.
The teaching assistant was always prepared and knew what she was talking about but it is super hard to keep up as my discussion was before the week's lectures. The course is a lot of content and it is hard to absorb so much of it before even being lectured on it.
